Professional Summary

Full-stack Developer and Computer Science & Business Systems graduate with hands-on experience building, debugging, and deploying scalable web and mobile applications. Skilled in Java, Spring Boot, React.js, Flutter, MySQL, AWS, Docker, Kubernetes, and DevOps practices. Strong problem-solving abilities with experience leading teams and delivering reliable software solutions.

Technical Skills

Languages: Java,SQL, python

Frameworks: Spring Boot, React.js

Cloud & DevOps: AWS Services(EC2,S3,IAM,Lambda,CloudWatch,SES,ECS,ECR,API Gateway), Docker, Kubernetes, Terraform,CI/CD(Jenkins), Prometheus, Grafana, Linux

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, REST APIs, Agile, SDLC

Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks

Other skills: debugging, problem solving, analytical skills,AI tools, leadership skills.

Internship Experience

Android Developer Intern

Feb 2026 – May 2026

Swizosoft OPC Private Limited, Mangalore

- Developed Android applications using Flutter and Dart with responsive UI and REST API integration.
- Implemented navigation, local storage, state management, and application lifecycle concepts.
- Collaborated with mentors to build, test, and debug production-ready mobile applications.

Full Stack Development Intern (Virtual)

Jun 2024 – Aug 2024

Thaniya Technologies

- Built responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Developed authentication, CRUD operations, and REST APIs.

Projects

DISCTS – Drug Inventory & Supply Chain Tracking System

React.js— Spring

Boot—MySQL—AWS—DevOps

- Developed a healthcare platform for inventory, procurement, vendor management, and secure role-based access.
- Deployed the application using AWS and DevOps tools, improving scalability and deployment reliability.

Agri Market – Smart Farmer-to-Buyer Platform

React.js—FastAPI—MySQL—Python(ARIMA&LSTM)

- Built an agricultural marketplace with crop price prediction and transaction management.
- Built and deployed a full-stack AgriMarket platform with 10+ REST APIs, enabling real-time price tracking and forecasting for 3 major crops.

DevOps Learning Hub

Flutter—Spring Boot-Java —PostgreSQL— DevOps—AWS.

- Developed an online DevOps learning management system that simplifies course delivery, user management, assessments, and certificate issuance through a single platform.
- Improved learning and course management efficiency by 60% through automated assessments, certification, and centralized content administration

Education

Bachelor of Engineering in Computer Science and Business Systems

Srinivas Institute of Technology,

Mangalore

CGPA: 7.8

Certifications & Achievements

- AWS Cloud Practitioner Essentials by AWS
- Java Full Stack Development by Eduskills Foundation(AICTE)
- Database Management Systems (SQL) by Ethotech
- Cisco networking Certification by Cisco
- Led project teams in ROOLATHON and SRINATHON National Hackathons.
- Top 30 Finalist among 150 teams in Inohax 1.0 Hackathon.
